

La Grave de Peille

Holcim St. Genevieve

Cimentos Balboa

Two more Semi-Turnkey Projects for AUMUND

WE CONVEY QUALITY

Vassiliko Cement

Under AUMUND's direction Vassiliko Cement Works in Cyprus is building an additional clinker silo with a capacity of around 100,000 tonnes. AUMUND is responsible for the technical organisation and coordination of the construction of the silo, complete with conveyor bridges, transfer towers, superstructures, loading silos and supports. AUMUND's scope of supply and services also includes all drive units and instrumentation as well as the complete plant design and the supervision of all installation work on site up to commissioning of the clinker transportation and silo system.

Saint-Gobain Gypsum

A member company of the Saint-Gobain group has awarded a second semi-turnkey project for the expansion of a production facility in Germany. AUMUND will supply the machines and coordinate the sub-suppliers as well as taking on the complete steelworks, construction of buildings and the electrical works.

AUMUND will hand over the complete installation to the customer in the first quarter of 2017, ready for operation and with CE certification

Package

- Supply of all drive units
- Instrumentation
- Complete plant design
- Steelworks, construction of buildings
- Electrical works
- More than 30 years of semi-turnkey competence

References: Extract from the project list in the range up to 20 million Euro

Year	Country	Customer
1977	Brazil	Votorantim Cimentos Ltda., Fábrica Cearense, Sobral
1978	Germany	Holcim Lägerdorf
1982 - 1997	Germany	HeidelbergCement AG, Milke
1984	Belgium	CBR Antoing
1987	France	Ciments Vicat, Montalieu, La Grave de Peuille
1988	Belgium	CBR Lixhe
1993	Iran	Steel silos for cement plants: Ardebil (4), Hormozgan (2), Gematan, Karoon, Khuzestan, Kordestan, Shargh
1994	Mexico	Cooperativa La Cruz Azul S.C.L, Hidalgo
1994	Thailand	Siam Cement, Kao Wong, Siam City Cement
2003	Turkey	Nuh Cimento
2003	Spain	Cementos Balboa
2007	USA	Holcim St. Genevieve
